

## Welcome to the „Ponyhof Meyers Park“

The important things first:

**At our ponyfarm ALL children are very welcome!**

Whether you are healthy or have a disablement, mentally or physically. You may come from the local area or from a distance. You are still welcome!

It is not important, if you are rich or poor or if you are afraid of horses or animals – we have the staff to help you to learn, how to work with animals, that are often stronger than you are :-)!

We will teach you to ride our ponys or horses (a lot of ponys and horses and 2 therapy horses). The correct animal will be chosen for you, so that you learn to communicate with the animal. The ponys don't judge us, they take us as we are, they are sensitive and know our needs.

All that is needed from you is a little cooperation, optimism, love and care for the animals, who will return this to you one way or another.

The ponys don't care, if you speak English, German oder any world language, or which colour you have. The pony will realise or feel, when you trust him or her, that trust will be returned to you!

---

Dear parents,  
if you believe, that this is the correct place for your child, healthy or disabled, then  
please call us. We are looking forward to your call.
